ALAWOONA RESERVES AND STREETSCAPE UPGRADE, MITCHELL PARK COMMUNITY ENGAGEMENT

The City of Marion, in partnership with Renewal SA, is co-funding and upgrading the Alawoona Reserves and surrounding Streetscape. Improving the appearance and functionality of Alawoona Avenue and Reserves will provide a positive image enhancing accessibility, amenity and recreation. The design incorporates water sensitive urban design requirements to support stormwater management qualities.

THE CONCEPT INCLUDES:

- A rain garden, tree planting, irrigated grass, park furniture and public art
- Roundabout and Alawoona Avenue streetscape renewal enhancing pedestrian and cyclist connections.
- Consistency of streetscape treatments to Tonsley Precinct.
- New pedestrian and cyclist pathways between Bradley Grove and rail crossing
- Formal car parking provision
- Pedestrian/cyclist connections to Tonsley Train Station

This document draws the plans together in a downloadable PDF – to be used together with the Making Marion website to review and provide feedback on the proposed plans.

ALAWOONA RESERVES AND STREETSCAPE UPGRADE, MITCHELL PARK COMMUNITY ENGAGEMENT

CITY OF MARION

CONCEPT PLAN

The Alawoona Reserves & Streetscape:

- Include a pathway network that marks key entries and connections to broader pedestrian networks and destinations such as the Flinders Greenway, Tonsley Station, Mitchell Park Sports and Community Hub and residential areas.
- Incorporate a Water Sensitive Urban Design 'rain garden' that will treat stormwater and irrigate garden beds.
- Comprise a variety of spaces - open lawns for recreation and smaller intimate spaces for resting or relaxing.
- Area capable of catering for Council wide small local community activities and passive recreation.
- Include appropriate supporting amenities, e.g. seating, picnic table, bike racks.
- Are supported by an arrangement of on-street parking on Alawoona Avenue, drop-off bay on Bradley Grove and formalisation of the existing off-street car park accessed from Woodland Road.
- Retain existing native trees in Southern Reserve. A new layer of tree planting and understorey planting provides opportunity to display local native plant species and enhance habitat.
- Removal of trees in the northern reserve that are declared weeds and reinstatement with appropriate species.
- Incorporate a Fig Tree Avenue to reduce urban heat, provide shade as well as emphasize the entry to Tonsley.
- Incorporate site specific public art that reinforces the Tonsley entry from both Alawoona Avenue and Bradley Grove.
- Traffic Management Alawoona Avenue:
    - Single lane raised platform over the extent of the intersection.
    - Shared footpath circulating the outside of the roundabout that includes cyclist bypass ramps on all approaches.
    - Revised road alignment to improve safety for vehicles, cyclists and pedestrians.
    - Reduced vehicle speeds (40km/h) through the intersection.

KEY

- Extent of Works
- Existing tree
- Proposed tree
- Irrigated turf
- Non irrigated garden beds
- On-road cycling
- Off-road cycling

1 Rain Garden with public art opportunity

2 Small paved viewing area

3 Fig tree avenue

4 Walking and cycling path connecting to Mitchell Sports Hub with flowering trees

5 Roundabout reinstatement. Includes landscaping

6 Entry public art opportunity

7 Existing mature trees in Southern Reserve to be retained. Logs for habitat. Native understorey planting around existing trees

8 Open flexible irrigated lawn

9 New insitu concrete path with lighting

10 Picnic settings in compacted granulitic sand

11 Formalised arrangement of carpark. New post + rail fence

12 Water sensitive urban design planting surrounding roundabout

13 Existing perimeter fencing removed

14 Native vegetation buffer along residential properties. Maintain informal access to rear properties

15 On-street indented parking (both sides)

16 Buffer planting along railway corridor

CONCRETE PATH (9)

LIGHTING (9)

SEAT

PICNIC SETTING (10)

GRANULITIC SAND (10)

PUBLIC ART OPPORTUNITY (6)

POST+ RAIL FENCE (11)

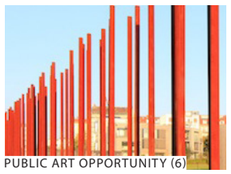

RAIN GARDEN (1)

ALAWOONA AVENUE PLANTING

NEW TREE AVENUE (3)

EXISTING TREES (7)

UNDERSTOREY PLANTING (7)

PUBLIC ART OPPORTUNITY (6)

FEATURE TREE (4)

IRRIGATED LAWN (8)
