Cove Community Garden – Consultation on amended design

November 2023

Dear Householder,

Background

In February 2023 the community were asked to provide feedback on a proposal for a new community garden on council land at Perry Bar Farm, Hallett Cove, we appreciate all the feedback we received.

Based on this feedback, the Cove Community Garden Group have made changes to the proposed garden design, and we are now inviting the community to participate in this next stage of consultation on the amended design.

Community Gardens

A community garden is a community space where residents come together to grow fresh produce including vegetables, fruit, flowers, and herbs. It is also a place for building social connections and a sense of community.

The Cove Community Garden Incorporated is a non-profit community organisation comprised of local residents who have come together to plan and establish an inclusive community garden in Hallett Cove. If this proposal was supported this group would be responsible for the ongoing care and management of the community garden.

Next Steps

The enclosed concept plan shows the revised location and outlines what is now proposed for the community garden.

We invite you to review the updated designs and have your say on the current concept plan. Visit **makingmarion.com.au/cove-community-garden** where you can provide your feedback by completing the online survey, or you scan the QR code on the next page.

Consultation closes at **5pm Monday 26 November 2023**.
