HAVE YOUR SAY COASTAL WALKWAY ASSETS

Your feedback will help shape the development of our Asset Management Plans so that we offer the right levels of service for our assets for the future.

The key questions are:

- **How well do they perform?**
- **Are they delivering our Community Levels of Service?**
- **What can be improved?**

The City of Marion Coastal Walkway provides open space for community recreation and conservation of the natural environment.

RECREATION AND CONSERVATION

The City of Marion Coastal Walkway from Marino to Hallett Cove commenced construction in the mid to late 1990's. It is a highly valued and well utilised community asset which attracts visitors into the region and contributes to the liveability of the City.

The broader Adelaide Metropolitan Coast Park Plan extends along Adelaide's coastline from Sellicks Beach to North Haven, with the Coastal Walkway providing a 7.2km section between Marino and Hallett Cove.

In addition to the stunning geological formations, native coastal vegetation and sites of indigenous cultural significances, the Coastal Walkway contains structures (stairways secured to cliff faces, boardwalks and bridges), pathways at ground level, lookouts and other surrounding public infrastructure such as bins, signs, artwork and benches.

The Coastal Walkway creates a recreational experience as well as a conservation corridor for natural vegetation and resident native fauna.

WHAT YOU TOLD US

Council uses a range of activities to engage with the community and stakeholders such as Social Media, Community Workshops and Meetings, Education Services, our website and via our Elected Members.

The Improvement Plan includes an action to investigate the feasibility of adding additional questions to Council's future Community Satisfaction Surveys.

HOW WE HAVE LISTENED

By listening and understanding what is important to you, we have developed Community Levels of Service:

SAFETY	Provide a safe open space walkway for enjoyment by members of the public
QUALITY	Operational requirements are safely and effectively met
FUNCTION	A walkway that provides a range of experiences to the public that supports health, wellbeing and nature conservation
CAPACITY	Assets are designed to cater for current demand
SUSTAINABILITY	Operational requirements are safely and effectively met, whilst minimising impact on the environment

We will optimise our spending through better asset management to deliver these service levels in the most affordable and efficient way.

The Coastal Walkway is described in a series of 12 Cells covering the entire coast from The Esplanade, Marino (Council's Northern boundary) to Sigma Road, Lonsdale (Council's Southern boundary).

Cell 8 covers the Hallett Cove Conservation Park which is a State Government asset managed by the Department for Environment and Water.

WHAT WE ARE DELIVERING

The Coastal Walkway provides a key tourism and visitation destination to residents and visitors from outside the City of Marion.

Deliver the Coastal Walkway Plan which responds to the need to renew and upgrade the Walkway and preserve its natural environs to restore its useful life to 50 years.

Coordinate these works with renewal and upgrade works proposed in the Hallett Cove Conservation Park. Creation of the last section of Coastal Walkway adjacent to the Field River Mouth.

Regular upkeep of structures, path infrastructure, native vegetation, landscaped zones.

It is proposed to install remote LoRaWAN people-counting technology at selected points along the walkway to gather utilisation data. This will drive data-driven decision making around future planning and service provision.

Document and approve an approach to Remnant Native Vegetation management along the Coastal Walkway to ensure best long-term conservation results.

Review lessons learnt from Stages 1 and 2 of the Coastal Walkway Plan.

COASTAL WALKWAY ASSET MANAGEMENT PLAN

EXECUTIVE SUMMARY

Assets covered by this plan

Coastal Walking trail from Marino to Hallett Cove
Gross replacement cost $5.56M
Reliable asset data

What it will cost over the 10-year planning period

Creation	$0.57M
Operation	$0.50M
Monitoring	$0.10M
Maintenance	$1.64M
Renewal	$10.90M
Total	$13.71M

Levels of Service

Provide a renewed Walking Trail, generally at Grade 2 standard as per the Australian Standard for Walking Track Construction (AS 2156) with a track width no less than 1.8 m with useful life of 50 years.

Funding levels are sufficient to continue to provide identified Community Levels of Service

Risk Management

Controls manage the major risk of a renewal funding shortfall

Infrastructure is monitored with increased maintenance intervention to manage high utilisation and the impacts of extreme weather events

Funding levels are sufficient to continue to manage risks in the medium term

Future Demands managed through ongoing monitoring

- Community Expectations
- Environmental Sustainability
- Improvement Initiatives
- Legislation
- Technology

Improvement Plan

- Measure utilisation to drive data driven decision making around future planning and service provision.
- Approve approach to Remnant Native Vegetation management along trail to ensure best long-term conservation results
- Review lessons learnt from Stages 1 and 2 of the Coastal Walkway Plan
