WORKS NOTIFICATION (4) SEPTEMBER 2023

Coastal Walkway Bridges: Anchor Bar installation Kurnabinna South

Dear Resident,

As work continues on the Coastal Walkway Bridges project, we are writing to inform you that a crane will be installed to lower some machinery into position. This is scheduled to happen on Thursday 21 September. The crane will be removed on the same day.

Please note that on this day, the crane will block access to your driveway. A parking bay will be reserved for you outside 22 The Esplanade, Hallett Cove. If you need to use your vehicle during the day, we recommend parking in the reserved bay. We apologise for the inconvenience this will cause.

Works are expected to take approximately 3-4 weeks, and it is likely that increased noise levels will be experienced during working hours. Noise levels will continue to be monitored during this phase of the works and we are committed to taking all reasonable and practical measures to minimise the impacts of noise resulting from these activities.

We would like to thank you for your ongoing patience as we deliver the Coastal Walkway Bridges project.

If you would like any further information, or if you have any questions, you can contact the project team via the details below.

Kind regards,

Coastal Walkway project team
