SITE OVERVIEW

The Graham Watts Playground and Cosgrove Hall are located in Clovelly Park adjoining York Avenue and the future Torrens to Darlington Project (T2D).

The local level playground is due for renewal and is being progressed for planning and design in 2023/24. This project has been endorsed within Council's Open Space Plan.

An upgrade for Cosgrove Hall is scheduled for feasibility, planning and design in 2024/25 (subject to budget approval). Council will also be considering public toilet facilities at this location.

The design and construction of these interconnected projects will be based on relevant staging and funding availability.
