

Warradale Park Reserve Public Toilet

Project Update & Notice of Works

Background

Construction of a new public toilet is planned at Warradale Park Reserve between Jan – May 2026.

The new standalone toilet was identified as a key priority in the City of Marion Open Space Plan 2024-2034. The planning process involved a site audit to determine the most suitable location, which considered access, service location, existing trees and crime prevention through environmental design (CPTED) principles.

Community Engagement Phase

Two location options for the toilet were provided and presented to the community for consideration. The final location of the toilet, preferred by the community is shown on the below plan.
